## TO THE GRADUATES CLASS OF '59

Further education is a "must" for all of you receiving your diplomas from P.H.S.

Webster defines education in part as "discipline of mind or character through study or instruction". There is no mention of beautiful buildings, inspiring teachers, ornate textbooks or any such that we deem necessary for education.

In short your education from now on will be largely through your effort, your desire to improve, your willingness to begin small to grow large intellectually and finally to realize education doesn't stop, it is a continuous process.

A few short months will find most of your class taking different directions. College, business, Armed Services and industry will find members of your class now a part of these fields. In each instance your superiors will be searching for leaders, ambitious young people eager to improve through education, whether it be of the mind or in manual work.

Education is many things, but to the class of "59" it is the key to a successful future. It wears well, it will outlive material things, it will give you a useful life. We have given you the beginning, the finish must be yours.

My sincere congratulations to your class, it has truly been a leader in P. H. S. We have enjoyed our four years together and wish you a successful future.

Arthur F. Terrell

## TO THE CLASS OF JUNE 1959

Congratulations. That you have been a record breaking class has been proven many times during the past year. Our fondest hope is that you will continue to achieve success in every endeavor that you undertake.

The road of life is rocky at times. Everyone has his ups and downs, therefore, resiliency is very desirable trait to develop.

By hard work, perseverance, self-discipline, alertness, tactfulness and diplomacy, you can be assured of success, security, and happiness.

Good luck to you and God speed

J. Albert Curz
